Do you want to eliminate time-consuming administrative tasks and dedicate more time to focusing on your business?

Have you ever calculated how much time you spend processing employee payments each month? Multiply that by 12- how many hours does that add up to in a year?

We have a solution in partnership with Modulr

We can create an e-wallet for you, allowing you to make one simple transfer into your e-wallet each month.

Our user-friendly dashboard enables you to manage and track your payments with ease.

We will take care of all your wage payments.

Our system integrates seamlessly with our payroll software, ensuring that payment reports are both accurate and efficient.

You will retain control by approving the payments.

Modulr operates 24/7, including weekends and holidays, so your business is not restricted to the traditional workweek.

Modulr is regulated by the FCA, ensuring compliance with the highest standards of financial security.
